HOW WE FIND YOUR TALENT

We have over **20 years of experience** staffing key leadership roles for clients across the country.

HERE'S HOW WE DO IT:

1. LEARN & DEFINE

Your dedicated search manager will meet with you to deeply understand your company's objectives and how the role supports your overall mission. We'll define core competencies, personality traits, and skills needed to be successful in the role.

3. PREP & INTERVIEW

Once we find your ideal matches, we'll prep them to meet with your hiring manager, and each key decision maker that's part of the interview process. We'll help coordinate the interviews and prepare questions; we'll even sit in on the interview panel.

2. SEARCH & ASSESS

We'll activate our extensive peer network and deep talent pool to identify and engage highly-qualified candidates who excel in similar positions and who share the same core values. We perform behavioral, psychographic, fundamental skills assessments to uncover individuals most likely to succeed.

4. HIRE & ONBOARD

We'll partner together with your HR team to build out a competitive framework for compensation and retention. We also support with offer delivery, package negotiations, and onboarding.

WE'RE READY TO WORK WHERE YOU ARE.

Our central teams have deep, local market knowledge that allows us to work with companies in all 50 states, even if we don't have an office in your backyard.

LET'S TALK.

Let's work together.

Let's talk about building an employee infrastructure that exceeds your expectations. The opportunities are *endless*.
