Our **CRM** platform is where we post all your positions and manage open orders.

Our **Talent Experience Management** platform is where candidates search and apply for your open job opportunities.

Our **associate onboarding** platform digitally manages virtual skills testing and all new hire onboarding paperwork.

Our **automated candidate communication** platform keeps candidates and associates engaged throughout their entire employee lifecycle.

Centralized agents can place candidates into a job from the comfort of their own home, with a quick call or text.

Our **FAQ and help desk ticketing** system is the place where candidates and associates go when they need support or have a question.

Our **contact center technology** ensures candidates and associates can chat with a live support agent at any time, on any device.

# Automation, customization, and engagement are critical components of any modern recruitment strategy, and we've built our **Recruitment tech stack** with this in mind.

## ATTRACT >> ENGAGE & NURTURE

*The core of our tech stack begins here.*

Our **CRM platform** pushes your open job opportunities out into the big, wide world, placing your jobs front-and-center wherever candidates are browsing.

Our **Talent Experience Management (TXM) platform** hosts your job posts. Using Artificial Intelligence, it creates experiences to quickly connect your open positions with the best-fit talent.

### BENEFITS

- Your jobs are live everywhere with a click of a button.
- Hyper-personalized experiences guarantee better quality hires, right when you need them.

## ENGAGE & NURTURE >> CONVERT & ONBOARD

*Timely, meaningful engagement keeps your talent pipeline full.*

With a quick call or text, job seekers can instantly connect with our **Centralized Recruiting Team**, who will place them into your open positions within minutes.

Our **onboarding automation technology** improves the candidate experience, streamlines complex hiring workflows, tests for skill sets, and ensures every employee has a great first day.

From a candidate's first click to their last, our **automated communication and engagement platform** sends targeted communications to keep talent engaged and informed during every step of the hiring process.

### BENEFITS

- Centralized recruitment supports fills your open positions faster.
- Your candidates stay engaged, increasing conversion rates.
- Automation frees your team from repetitive admin work.

## RETAIN & DELIGHT >> ON-DEMAND & REDEPLOY

*We've got your back, every step of the way.*

Our **customer engagement software** enables us to assist candidates and associates with ease. From answering candidates' FAQs to onboarding your new hires, our robust ticketing system automates workflows to create efficiencies that get people onto your assignments faster.

Our **contact center technology** allows us to provide centralized inbound chat and caller support for candidates and associates, ensuring our clients and associates have the support they need, when they need it.

When you need talent fast, our **talent pool** is on standby. With a few clicks, we can re-engage associates to quickly fill your shifts with qualified people, ready to work.

### BENEFITS

- Our support technology puts more time back into your team members' days.
- Removing barriers to hire ensures we can fill your positions faster and with happier associates!
- You can close shift gaps, reduce overtime, and meet consumer demand.
