ELEVATE YOUR CANDIDATE APPLICATION EXPERIENCE WITH VR TECHNOLOGY

Job descriptions are an essential part of recruiting. The challenge? Applicants don't thoroughly read them.

When a new employee has a poor understanding of what their workday looks like, it leads to job dissatisfaction, higher attrition and increased turnover – *costing you valuable time and impacting your ability to meet business objectives.*

VR VIDEOS FOR APPLICANTS

Integrity Staffing can take your standard job description and elevate it to the next level with our new interactive Virtual Job Preview Experience Technology.

Using virtual reality video, applicants see what sets your company apart and gives them a glimpse into their real-life, day-to-day experience at your facility.

These virtual job previews generate quality candidates that:

- Will be the most successful in the roles that you offer

- Reduce attrition and recruitment costs

- Strengthen your workforce's overall health

FAST FACTS
